

# ADEC SOLUTIONS UK

**Assurance for 18+ million Real Estate Transactions per year since 2007**

**A Fortune 500 Company in Real Estate**

[adec-solutions.co.uk](http://adec-solutions.co.uk)

## THE CLIENT

Fortune 500 Company provides real estate settlement services with an extensive network of agents throughout the United States. Client serves the entire real estate spectrum—from buyers, sellers, agents, brokers, and to other professionals in the industry.

## THE CHALLENGE

The purchase and sale of any property, being the crucial business driver for the client, requires dozens of data points across numerous systems and sources. Every step of the way necessitates thorough validation. The client wants to be assured that processes advance as smoothly as possible despite these complex and labour-intensive operations.

## THE SOLUTION

Every real estate transaction involves far more significant information than people realise. From the obvious to the obscure, data must be acquired and analysed, and the results are conveyed to the interested parties on-time at a competitive cost. Numerous steps and man-hours are required to complete each real estate transaction, and we play a significant role in over 18 million of them per year.

With this in mind, we provided the means to process and validate multiple data the client needed to finalise major deals with their clients. We ensured the overall streamlining of these purchase and sale transactions for current and future needs.

With over twenty years of experience in the field, ADEC Innovations understands the broad picture as well as the nuances of the different processes in the fragmented real estate market. Its experienced personnels help ensure that transactions are complete within the time frame of the parties.
